### STREET STORIES

The parents, teachers, and pupils of the fourth ward will meet there this afternoon for the purpose of discussing plans for civic attractiveness in that ward.

Mr. and Mrs. P. P. Kearney have moved from North Washington street to their new home which has just been completed, in the southwest portion of the city.

The mayor stated this morning that no selection had been made to fill the vacancy on the park board made by the appointment of Russell Brown as city attorney.

Work on the federal building is progressing rapidly, soon the work on the first story will begin and progress will be noted more readily from day to day. The work on the foundation was necessarily slow, but is now finished, and the steel framing is being erected.

The firemen are making great preparations for their annual fall carnival which takes place next month. They are hoping that weather conditions will be favorable, as the carnival company is one of the best that has ever shown here.

One man who thought that grass was not weeds, and vice versa, was in the city court this morning for refusing to cut the former that was obstructing a sidewalk near his property. Grass and weeds will be cut in the future, it's cheaper.

At the regular convention of Myrtle lodge last night, several candidates were initiated into the mysteries of the various ranks. The lodge is growing rapidly and the many new features recently added are proving drawing cards to a number of young men of the city.

The small boy is beginning to ask whether a circus is likely to visit this city this season or not, but up to date no advance men for any of the big shows have made their appearance in his city and it begins to look as if they intended passing Ardmore up this season.

Mrs. G. C. Dale of this city received announcement yesterday that Mrs. Alma Bigert, formerly of this city, and Dr. A. B. Donaldson of Portland, Oregon, were married at that place September 1. Mrs. Bigert lived in this city for a number of years and has many warm friends here.

The new Ringling depot will soon be ready for occupancy by the railway officials. The new structure is a thing of beauty and an ornament to that portion of the town in which it is situated. The old depot will be demolished and moved from the lot which will be used for yard purposes.

Sheriff Garrett received word this

## "Dennes' Motto No 7"

EACH STATE, County and City should have an expert, at the end of every six months, to thoroughly examine into the affairs of every office-holder, and make a public statement of his efficiency and the condition of his office.  
WHY? Because the U. S. government demands it every Four Months, and the smaller the business, the more necessary it is that its interests should be rightly managed.

morning that a gang of hoodlums about Fox broke up a religious gathering at a church south of that place last night, by casting over-ripe eggs into the midst of the congregation. The sheriff dispatched some deputies to round up this bunch, and when caught they will be given the limit.

Street Commissioner DeWitt has been doing his best to improve the condition of street crossings outside of paved district. In several places people in crossing from one street to another are reminded of bumping the bumps at a summer resort, but this is being remedied as rapidly as possible.

Commissioner London is racking his brain to determine what make of car he will purchase for the use of the city; that is, he thinks he is in a quandary, but the chances are that one with a short, familiar name that gets there and gets back with a minimum of upkeep, will eventually find its way into the city garage.

The mayor states that henceforth he is going to follow the example of the municipal judge of Oklahoma City, and every vagrant brought before him is going to pay a heavy fine or else work the streets for a certain period, and he further added that he meant for them to work, not to lay around on any pretext whatever, unless actually ill, and the city physician will be required to pass upon this question.

Deputy Sheriffs Ward and Gant swooped down on some of the wide open joints at Ragtown yesterday and confiscated a couple of automobile loads of beer and other liquors. The stuff was brought to the county jail. When the lid went on in the city a number of our former citizens who were dealers in wet goods and faro, moved to the oil town, thinking to get by, but it seems that the minions of the law won't let them operate even where popular sentiment is in favor of it.

Farmers from the western part of the county who were in the city today, states that crop conditions were never better than at present, cotton is looking fine and where the acreage was materially decreased, the crop will produce as many bales as last season. Some cotton buyers here place the estimated wagon receipts for this season at 14,000 bales, while others are inclined to believe that the total will reach that of last season, which was 19,500.

They Always Do.  
"Does anyone think your son has a future?" "Yes, the life insurance companies."—Life.

Impersonal.  
"An optimist, my son, is a person who doesn't care what happens if it doesn't happen to him."—Puck.

Obvious.  
Bob—"Why does a fat man always wear a plaid vest?" Harley—"To keep a check on his stomach, I suppose."

Not the Same.  
"Full crew" did not mean today what the same words meant 25 or 30 years ago.—Dallas News.

Greeted His Old Friends.  
A young actor obtained permission from the celebrated satirist Piron to read to him a tragedy which was on the eve of being brought out. At every verse that was pillaged Piron took off his hat and bowed, and so frequently had he occasion to do this that the author, surprised, asked what he meant. "Oh," replied Piron, "it is only a habit I have got of saluting my old acquaintances."

## RUSSIANS CLAIM GAIN AND LOSS

CONTINUED FROM PAGE ONE.

to take the offensive when well supplied with ammunition, there is no inclination to exaggerate their importance. The engagements, however, keep the Austro-Germans busy and make it imperative to send reinforcements southward, which could be used to better advantage in the north, where operations of much greater moment are being directed by Field Marshal von Hindenburg.

This general, who began his offensive against the Vilna-Dvinsk railway a week ago, has not yet established himself on the line. His cavalry, which did not reach it, has been driven back. Nevertheless, he has driven across the Dvina river, north of Dvinsk, placing that city in a rather dangerous position, and also has made some progress north of Vilna.

To the south of Vilna toward Grodno the Russians are offering stubborn resistance and have the Germans firmly held. Something of the same kind has happened in the center; Prince Leopold has been delayed in his advance. Field Marshal von Mackensen has passed his forces through the Pripiet marshes and is now in possession of Pinsk. From this point southward the Russians are advancing and have recaptured a number of villages, but they are not likely to push their advantage much farther, as to do so would make their northern flank vulnerable.

A good deal of importance is attached to the decision of Russia, announced today, to call to the colors the reserves of the territorial army. The Russian senate has been instructed to fix the ages and numbers of the reservists. Should the age limit be fixed at 35 years, this fresh call would mean the possible addition of 8,000,000 to the Russian armies, including the men who had passed through the first line and the reserves and those who heretofore have been exempted as students or only sons or men who are not quite up to the physical standard.

Naturally all of these could not be armed and equipped, but Russia could have the pick of them.

With Russia now well supplied with munitions, her allies, who have been supplying her, are now able to turn their attention to their own armies, and in consequence there is no cessation in the artillery engagements which have been so marked in the west for several weeks past.

## ARDMORE HAS INFANT PRODIGY IN SCHOOL

SIX YEARS OF AGE AND IN THE 4TH GRADE—WILL BE IN THE HIGH SCHOOL BY THE TIME HE IS TEN—LIKES STUDIES.

Ardmore has an infant prodigy in one of the ward schools, he is but six years of age and is already in the 4th grade, he has set his heart on entering the high school by the time he reaches ten and unless misfortune overtakes him he will reach the goal.

His parents and relatives are encouraging him in every way possible and he takes so kindly to his studies that it is actual play for him, he has been promised a handsome reward for his effort if he succeeds in making the other four grades necessary to take him from the grammar school and up to the high. This infant is the young son of Mr. and Mrs. J. S. Mullen who are justly proud of their boy who is making good so rapidly in his studies.

BIG SHIPMENT OF GLASS JUST RECEIVED. HUNT'S MILL. PHONE 329. 12-6t

Yellow complexion, pimples and disfiguring blemishes on the face or body can be gotten rid of by doctoring the liver, which is torpid. HERBINE is a powerful liver correctant.
